# DocuSign
Integration

The **DocuSign Interface** enables dealers to send **Quote Proposal Documents** to customers via e-mail for their electronic signature. The easy-to-use digital transaction platform lets users send, sign and manage legally-binding documents securely in the cloud. Once signed by the customers, the documents are automatically stored in the Document Management System.

KEY FEATURES

- Paperless Process.
- Reduced lost documents.

BENEFITS

- Elimination of manual tasks of login into DocuSign portal and creating the envelope.
- Digital copies of document are automatically stored in the e-Emphasys ERP Document Management.
- Automatically saves the signed document with DocuSign Certificate in Document Management, once the signing process is completed.
