

ERP 6.0

Upgrade to the Future

OVERVIEW

e-Emphasys ERP 6.0 is a futuristic Enterprise Platform for equipment dealers and rental companies.

KEY FEATURES

TECHNOLOGY KEEPS YOU AHEAD

Long-term innovation compatibility makes your business future-proof.

LEVERAGE NEW FEATURES

With improved accessibility to mobile applications, on-field tasks such as Order Approvals and Alerts are more simplified.

THE LATEST VERSION OF OS AND SQL

The latest Operating System comes with security updates to ensure improved software stability, along with built-in Security Token Services (STS) supporting Multi Factor Authentication (MFA) and any SAML 2.0 compliant identity provider.

NO PROCESS CHANGES

Works with your existing business processes.

Technical Stack upgrade offers stronger framework and better tools to work with.

QUICK UI TRAINING

Easy hands-on training makes you familiar with the new and more meaningful User Interface.

Experience increased engagement and retention with the next-generation Role-based Widgets that are configurable by branch and users.

BENEFITS

COUNT WIDGET ENHANCEMENTS

- Role-based widgets.
- New configuration option to color the widget based on the count to indicate severity.

TASK MANAGER WIDGET

- See all tasks for a given workflow.
- Reassign tasks to others in the distribution list or add in others ad hoc.

TASK WATCHER WIDGET

- View all tasks for a given workflow in 'Read Only' mode.

Task View from Task Manager Widget

INBOX VIEW (TASKS, ALERTS AND NOTIFICATIONS) ON A SINGLE SCREEN

- Rich UI for Tasks offers more space to view bigger content.
- Indicator to show if the Task is assigned or not at the subject level.
- Option to sort and filter the content of the inbox.

The screenshot shows the 'Inbox' view in the ERP application. On the left, there's a sidebar with 'Tasks' (16), 'Alerts' (14), and 'Notifications' (0). The main area is titled 'All' and shows a list of tasks and alerts. One alert is highlighted with a yellow circle and a question mark icon. To the right of the list is a detailed view of a specific task: 'Please approve Invoice# COSTINV001' from 'YESTERDAY AT 21:30:52'. The details include: BPLName: KOMATSU AMERICA CORP, Net Amount: 135.00; Ship From BP: BP0000130, Invoice Number: COSTINV001; Invoice Issue Date: 20/04/2020, Department: PPG101. Below this is an 'Attachments' section with 'Workflow Progress' and 'Notes (0)'. At the bottom, it shows Task ID: 291 and Workflow ID: 30.

All Tasks, Alerts and Notifications on a single screen

IN-CONTEXT GOOGLE MAP

- Shows the location in Google Maps in context with the selected ERP records.
- User has the option to update the address in ERP by just moving the marker to an appropriate location.

SMART REPORTING SERVICES

- New Report Designer Tool integrated with the Product Tool.
- With format-independent printing, format-specific devices are no longer required.
- No more dependency on external reporting services.

DOCUMENT MANAGEMENT ENHANCEMENTS

- Option to download Multiple documents in one go.
- Retention policy to automatically Archive, Delete or Purge documents.
- Restore Archived/Deleted documents.
- New options in Context App-related information pane: Download document in Original Format, PDF Download, Print and Send in e-mail.

UX Enhancements

- Skin Preferences & Custom Skin Editor
- Quick Selection of Items in List Boxes
- Customizeable Home Button
- Profile Header
- Bookmarks
- Improved Menu Navigation
- Node Search
- Session Order History
- Conditional Formatting
- Corporate Colors

The screenshot shows the 'User Profile Details' section with 'User Profiles' selected. On the left, there's a sidebar with 'User Settings' and 'Options'. The main area shows 'Appearance' settings, including a dropdown menu for 'Skin' with options like Graphite, Amber, Amethyst, Azure, Emerald, Ruby, Slate, Turquoise, and Custom. Other settings include 'Navigation menu skin', 'Font', 'Display density', 'Start sessions in new browser window', 'Number of rows to scroll per mouse wheel tick', 'Automatically expand and collapse the navigation menu', 'Visibility of zoom icons in overview sessions', and 'Session history order'. At the bottom, there are some numerical values: uigwt0102s000 and 0000.
